

CHICK ADOPTION SHEET

If you are considering adopting chicks, please first read the information sheet, 'Adopting Chicks', on the Henny Penny Hatching website, www.hennypennyhatching.com.au to ensure that you will be able to take care of them. Remember that cute, fluffy little chicks do grow into adult chickens and that once you have committed to taking them home you will have to care for and provide for them right through to the end of their adult lives. Our hens are generally excellent layers, but remember that these chicks have not been sexed and that approximately 50% of them will be hens and 50% will be roosters. There is no guarantee that you will receive hens. If you are concerned about what to do if you end up with a rooster you should not take any chicks, as once you have taken them they cannot be returned.
